For Value Added  
Plywood

## ABOUT US

Since 1982, Master Handlers is recognized as a quality equipment manufacturer & supplier for the laminate, wood panel and furniture industry.

The company takes great pride in its engineering and technological innovations. Our philosophy of “HELPING CUSTOMER TO DO HIS BUSINESS BETTER” has helped us to innovate in Laminate/Plywood industry to increase productivity.

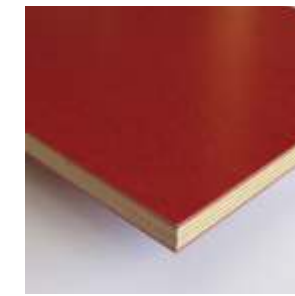

- Improve quality of end products for customer
- Extend life of capital goods by better engineering
- Have less energy consumption
- Have flexibility in surfaces
- Support with after sales service

As a continuous process of innovation, we have served our esteemed domestic and international customers by supplying machines for various new applications in Plywood Industry.

- SCL Press for pre-lamination of melamine faced plywood
- Loading-Unloading automation for high production of plywood
- Energy efficient Paper Impregnation Lines for Shuttering Ply/Melamine Décor Paper
- Unique Flexi Press with auto glue spreader to address the demand for various decorative surfaces
- Combi Press for increased flexibility

We offer total project support to design, helping with optimum layout/equipment, complete project for a plywood, furniture & wood industry.

We are confident that our Modular/Flexible/Energy Efficient solutions specifically designed for today's Plywood Industry, will pave for great relationship.

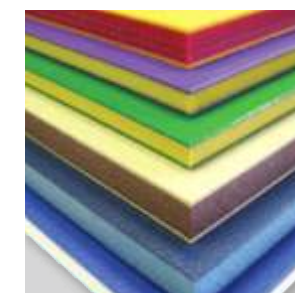

### Loading-Unloading Automation For Shuttering Ply

- Increase in production by 40%
- Ease of loading-unloading for 20 daylight & above presses
- Excellent quality finish product surface
- Long life of press plates

### Flexi Press For Laminate | Veneer | Acrylic | PVC Faced Plywood

- High production capacity 40 - 50 boards/hour
- Options for single/double side gluing
- Modular line construction
- Flexible production for various surfaces

### Universal Impregnation Line For PF | MF | UMF

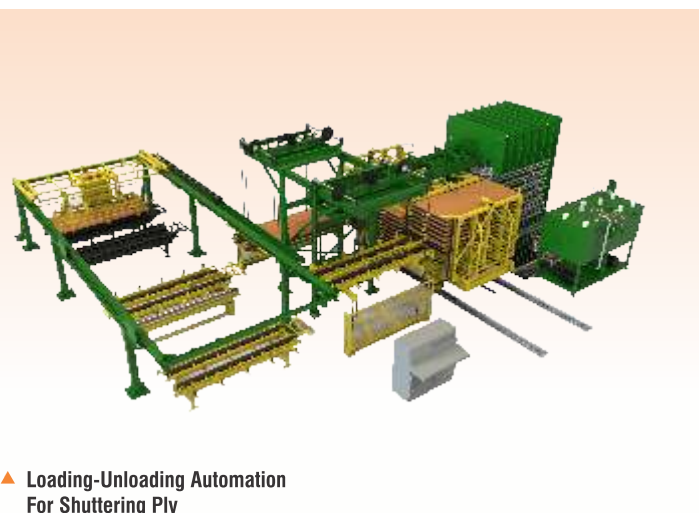

- Universal cum multi purpose impregnation line
- Paper & Film impregnation
- Uniform coating at high speed
- High efficiency drying; less wastage

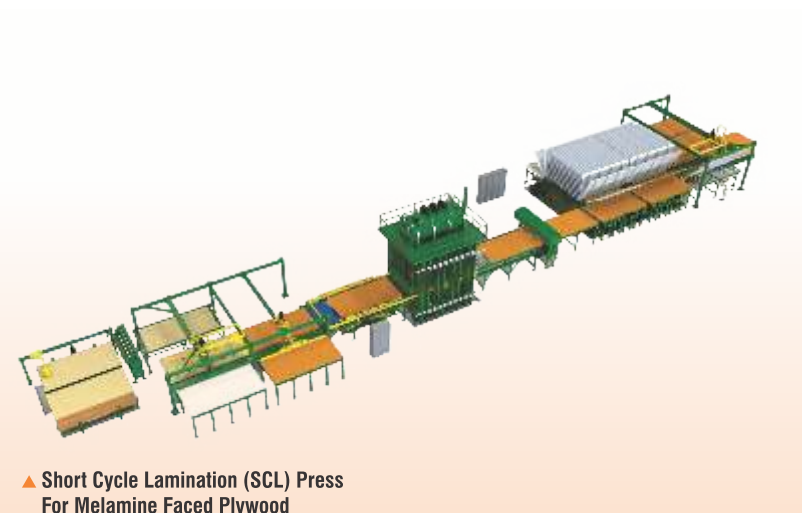

### SCL Press For Melamine Faced Plywood

- Unique end product
- High production capacity – 3000 boards/day
- Minimum manpower; automatic line
- Modular line to suit automation requirement
- Feasibility for multiple sizes in same press

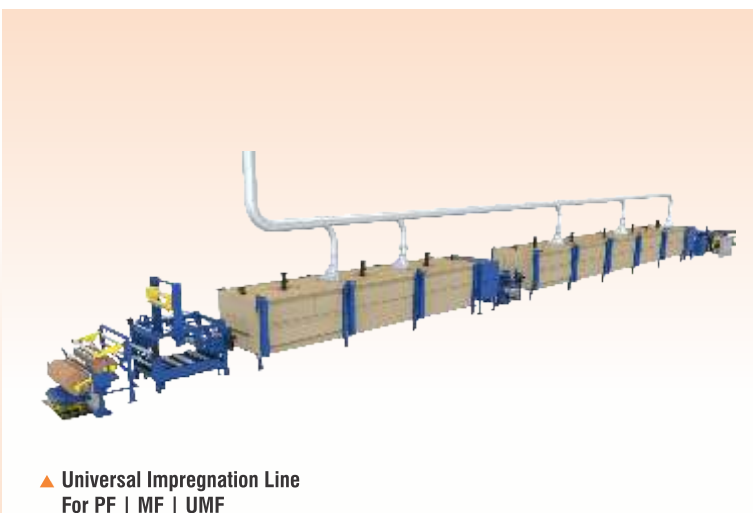

NOTE: Options can be discussed as construction & control are modular

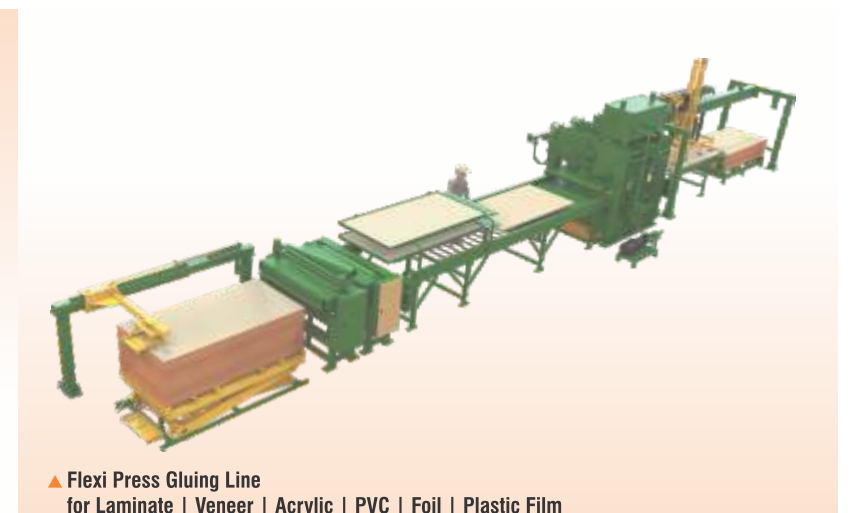

▲ Loading-Unloading Automation For Shuttering Ply

▲ Short Cycle Lamination (SCL) Press For Melamine Faced Plywood

▲ Universal Impregnation Line For PF | MF | UMF

▲ Flexi Press Gluing Line for Laminate | Veneer | Acrylic | PVC | Foil | Plastic Film

# CUSTOMER FOCUSED

## **INNOVATIVE:**

Continuously innovate to meet new customer expectations & demands

## **AFFORDABLE:**

Offer solutions that provide true value to the customers; optimal investment with high returns

## **FLEXIBLE:**

Listen to our customers, understand their needs & provide the right solution; partnering in their success

## **MODULAR:**

Integrate machine modules to work seamlessly together with possibility of future additions

## **ACCESSIBLE:**

Provide expert & responsive service support 24 x 7

Trusted Technology  
Lasting Relationships
